WEBSITE AUDIT REPORT

parthkanasagra.in

https://parthkanasagra.in/ · Scanned November 3, 2026

Speed | SEO | Security | Accessibility | SSL | Privacy

Grade B

Good, with a few things worth fixing.

2 failed checks | 8 warnings

Score overview

Performance — F
Loading speed and Core Web Vitals.

47 / 100

Accessibility — A
How usable the page is for everyone.

96 / 100

Best Practices — C
Modern, safe browser and HTTPS usage.

73 / 100

SEO — A+
How well search engines can read the page.

100 / 100

Security Headers — A
Headers that protect visitors from attacks.

95 / 100

SSL Certificate — C
Certificate validity, expiry and HTTPS.

75 / 100

Grades A+ 98–100 | A 93–97 | A- 90–92 | B 80–89 | C 70–79 | D 50–69 | F 0–49

Fix these first

The most important problems found across the report.

2 failed 8 warnings

× **SPF record** — DNS & Email
Publish an SPF TXT record (e.g. "v=spf1 include:_spf.google.com -all") listing every service allowed to send mail for this domain.

× **Tracking cookies before consent** — Privacy & Cookies
These cookies were set on first load without any interaction. Configure your tags (e.g. Google Consent Mode v2) so they wait for consent.

! **HTTP → HTTPS redirect chain** — SEO & Metadata
Redirect HTTP straight to the final HTTPS URL in one hop. Every extra redirect adds latency and dilutes link equity.

! **Text-to-HTML ratio** — SEO & Metadata
Most of the HTML is markup or inline code. Move inline scripts/styles to files and add more visible content.

! **Modern image formats** — Asset Performance
Convert images to WebP or AVIF for 25–50% smaller files.

! **Server version disclosure** — Server Security
Hide software names and versions (e.g. "server_tokens off" in Nginx, "expose_php = Off" in PHP, remove X-Powered-By) so attackers cannot match known vulnerabilities.

! **CAA records** — DNS & Email
Add CAA records (e.g. 0 issue "letsencrypt.org") so only your chosen certificate authorities can issue certificates for this domain.

! **Cookie consent banner** — Privacy & Cookies
Trackers run on this page but no consent banner was found. GDPR, UK GDPR and ePrivacy require opt-in consent before non-essential cookies in the EU/UK.

! **Privacy policy link** — Privacy & Cookies
Link to a privacy policy from every page (usually in the footer). Most privacy laws and app stores require it.

! **Reduce unused JavaScript** — Core Web Vitals
Could save about 850 ms of load time.

1 Core Web Vitals

Lab metrics from Google Lighthouse on mobile and desktop, mobile friendliness, page weight and carbon, plus real-user Chrome data when Google has it.

Mobile lab metrics

LCP	FCP	CLS	TBT	Speed Index
5.1 s	2.4 s	0.000	3.0 s	4.3 s
Poor	Needs work	Good	Poor	Needs work
Largest Contentful Paint	First Contentful Paint	Cumulative Layout Shift	Total Blocking Time	How quickly content appears

Lighthouse recommendations

Reduce unused JavaScript

Reduce unused JavaScript and defer loading scripts until they are required to decrease bytes consumed by network activity. Learn how to reduce unused JavaScript.

Could save about 850 ms

Mobile friendliness

Tap targets & layout

Poor

Checked on a 375px-wide phone screen

Found 18 buttons or links smaller than 44×44px. Ensure all tap targets are spaced and sized correctly for touchscreens.

3 Asset Performance

Hosting, delivery and the assets with the most to gain from optimization.

Speed, hosting & delivery

Modern image formats — Warning

`3/33 images are PNG/JPEG/GIF`

Convert images to WebP or AVIF for 25–50% smaller files.

CDN — Info

`None detected`

A CDN (Cloudflare, CloudFront, Fastly, Bunny) caches assets close to visitors and cuts load times worldwide.

HTML compression — Info

`gzip`

Brotli usually compresses 15–20% smaller than gzip. Enable it if your server or CDN supports it.

Third-party requests — Info

`35 requests to 6 domains (top: googletagmanager.com ×12, clarity.ms ×11, googlesyndication.com ×7, digitaloceanspaces.com ×2, google-analytics.com ×2)`

Audit third-party tags and remove ones you no longer use; load the rest with async/defer or after interaction.

Hosting network	`64.227.152.196 — DO-13`	Info
DOMContentLoaded	`1378 ms`	Info
Full page load	`2019 ms`	Info
Web fonts	`6 font files`	Info
Time to First Byte (TTFB)	`149 ms`	Passed
Static asset caching	`First-party static assets are cached long-term`	Passed
Total requests	`91`	Passed
Page weight	`361.5 KB`	Passed
HTML document size	`128.9 KB`	Passed
DOM size	`722 elements`	Passed

© 2026 **The Site Vitals**. All rights reserved.

Front-end asset optimization

Minified	Compressed	Cached	Possible savings
22%	56%	78%	261.7 KB
Poor	Needs work	Needs work	Smaller page weight after fixes
Scripts and styles that are minified	Assets served with gzip or Brotli	Assets with cache headers	

The 5 most important of 9 assets to improve, by severity and possible savings.

Asset	Type	Size	Minified	Compressed	Cached	Severity
`https://www.googletagmanager.com/gtag/js?id=G-6P42G1T4VH` Compress and minify this stylesheet/script to reduce code payload. Enable GZIP or Brotli compression on your web server for this asset. **Saves about 134.2 KB.**	JS	191.7 KB	No	No	Yes	High
`https://www.googletagmanager.com/gtag/js?id=AW-631301185&cx=c&gtm=4e6au1` Compress and minify this stylesheet/script to reduce code payload. Enable GZIP or Brotli compression on your web server for this asset. **Saves about 106.6 KB.**	JS	152.3 KB	No	No	Yes	High
`https://parthkanasagra.in/build/assets/app-DvGRJ3tP.js` Compress and minify this stylesheet/script to reduce code payload. **Saves about 9.2 KB.**	JS	36.9 KB	No	Yes	Yes	Medium
`https://parthkanasagra.in/build/assets/app-BsxaHpPz.css` Compress and minify this stylesheet/script to reduce code payload. **Saves about 5.2 KB.**	CSS	20.6 KB	No	Yes	Yes	Medium
`https://parthkanasagra.in/build/assets/Portfolio-B3iq-55j.js` Compress and minify this stylesheet/script to reduce code payload. **Saves about 4.5 KB.**	JS	18.0 KB	No	Yes	Yes	Medium

5 SEO & Metadata

Meta tags, search preview, structured data, headings, indexability and AI search readiness.

Search preview

https://parthkanasagra.in

Senior Laravel & Backend Developer for Hire | Parth Kanasagra

Certified Senior Laravel & PHP backend developer with 9+ years building REST APIs, scalable backends, MySQL, Docker & AWS. Available for remote freelance work.

Indexability

Robots index tag	Canonical tag	robots.txt	Sitemap
Indexable	**Defined**	**Found**	**Found**

Advanced SEO checks

HTTP → HTTPS redirect chain — Warning

`301 http://parthkanasagra.in/ → 301 https://parthkanasagra.in// → 200 https://parthkanasagra.in/`

Redirect HTTP straight to the final HTTPS URL in one hop. Every extra redirect adds latency and dilutes link equity.

Text-to-HTML ratio — Warning

6%

Most of the HTML is markup or inline code. Move inline scripts/styles to files and add more visible content.

AI crawler access — Info

`Blocked: GPTBot, Google-Extended, CCBot, Bytespider`

Blocking AI crawlers keeps your content out of ChatGPT, Claude, Perplexity and Gemini answers. Keep it only if that is intentional.

www / non-www consistency	`www.parthkanasagra.in redirects to parthkanasagra.in`	Passed
X-Robots-Tag header	`Not set (indexable)`	Passed
Content length	`996 words`	Passed
Content in initial HTML	`1005 words available without JavaScript`	Passed
Internal links	`17 internal, 14 external (0 nofollow)`	Passed
hreflang tags	`2 valid tags`	Passed
Structured data fields	`Types: Person, ProfilePage, Service, WebSite, FAQPage`	Passed
Open Graph image	`Loads correctly`	Passed
Favicon	`Loads correctly`	Passed
Sitemap URL health	`10/10 sampled URLs return 200`	Passed
llms.txt	`Published`	Passed

6 Broken Links

Links on the page that return an error.

No broken links found. Every link we tested on the page returned a working response.

© 2026 **The Site Vitals**. All rights reserved.

7 Accessibility

WCAG issues that make the page harder to use with assistive technology.

Critical	High	Medium	Low
0	0	2	0

Medium Contrast WCAG 1.4.3 Contrast (Minimum)

Low text contrast ratio (2.87:1). The text color does not meet the minimum WCAG contrast requirements of 4.5:1.

```
<a href="mailto:parthkansangra35@gmail.com" class="inline-flex items-center gap-2 rounded-lg bg-[#FF2D20] px-5 py-2.5 text-sm font-semibold text-white...
```

Recommended fix: Increase the contrast between the text color (rgb(255, 255, 255)) and background color (rgb(255, 45, 32)).

Medium Contrast WCAG 1.4.3 Contrast (Minimum)

Low text contrast ratio (1.53:1). The text color does not meet the minimum WCAG contrast requirements of 4.5:1.

```
<a href="https://wa.me/919924780874" target="_blank" rel="noopener noreferrer" class="inline-flex items-center gap-2.5 rounded-lg border border-[#25D3...
```

Recommended fix: Increase the contrast between the text color (rgb(255, 255, 255)) and background color (rgb(37, 211, 102)).

© 2026 **The Site Vitals**. All rights reserved.

8 Security Headers

HTTP response headers that protect visitors from common attacks.

`Access-Control-Allow-Origin`

Low risk | Missing

Controls which third-party external origins are authorized to fetch resource data from this site. Prevents unauthorized domains from exfiltrating sensitive data via Cross-Origin Resource Sharing (CORS).

Protects against: Cross-Origin Data Exfiltration, CORS Exploits

How to fix: Configure Access-Control-Allow-Origin headers tightly, avoiding wildcard "*" if credentials are authenticated.

`Content-Security-Policy`

Critical risk | Active

Restricts which resources (e.g. JavaScript, CSS, Images, Frames) the browser is allowed to load for a given page. Crucial for blocking unauthorized scripts from executing in the visitor's browser, protecting user session data.

Protects against: Cross-Site Scripting (XSS), Clickjacking, Packet Injection

```
default-src 'self'; base-uri 'self'; object-src 'none'; frame-ancestors 'none'; form-action 'self'; img-src 'self' data: https:; font-src 'self' data:; script-src 'self' 'nonce-gQE7nlwlKucflIJFp2DNPDY2u0BEq9YPPZu77vZ6' 'strict-dynamic'; style-src 'self' 'nonce-gQE7nlwlKucflIJFp2DNPDY2u0BEq9YPPZu77vZ6'; style-src-elem 'self' 'unsafe-inline'; style-src-attr 'unsafe-inline'; frame-src 'self' https://www.googletagmanager.com; worker-src 'self' blob:; connect-src 'self' https:; upgrade-insecure-requests
```

`Strict-Transport-Security`

High risk | Active

Instructs the browser to only connect via secure HTTPS connections, rejecting unencrypted HTTP. Protects users from SSL-stripping attacks where a connection is maliciously downgraded to HTTP by intermediaries.

Protects against: Man-in-the-Middle (MITM), Session Hijacking, SSL Stripping

```
max-age=31536000; includeSubDomains, max-age=31536000; includeSubDomains; preload
```

`X-Frame-Options`

Medium risk | Active

Directs the browser whether the page can be rendered inside a <frame>, <iframe>, <embed>, or <object>. Essential to prevent clickjacking where a site is invisibly layered over an attacker's page to steal clicks.

Protects against: Clickjacking, UI Redressing

```
SAMEORIGIN, DENY
```

`X-Content-Type-Options`

Low risk | Active

Prevents the browser from MIME-sniffing the response away from the declared content type. Stops browsers from executing non-executable assets (like a benign user .png upload) as executable scripts.

Protects against: Drive-by Downloads, MIME Sniffing, Cross-Site Scripting (XSS)

```
nosniff, nosniff
```

`Referrer-Policy`

Low risk | Active

Controls how much origin information is included in the Referer request header during navigation. Essential for user privacy, preventing sensitive parameters or tokens in URLs from leaking to third-party endpoints.

Protects against: Information Disclosure, Referrer Leakage, Privacy Leaks

```
no-referrer-when-downgrade, strict-origin-when-cross-origin
```

© 2026 **The Site Vitals**. All rights reserved.

Permissions-Policy Low risk Active

Restricts the browser's ability to activate high-risk hardware APIs (camera, microphone, geolocation, etc.) on the current page. Limits the attack surface of a potential security breach by disabling unnecessary browser capabilities.

Protects against: Feature Hijacking, Unauthorized Hardware Access, Physical Geolocation Tracking

```
accelerometer=(), autoplay=(), camera=(), display-capture=(), encrypted-media=(), geolocation=(), gyroscope=(), magnetometer=
(), microphone=(), midi=(), payment=(), usb=(), browsing-topics=()
```

© 2026 **The Site Vitals**. All rights reserved.

9 Server Security

Cookies, version leaks, mixed content and vulnerable JavaScript libraries.

Server version disclosure — Warning

`Server: Apache/2.4.58 (Ubuntu)`

Hide software names and versions (e.g. "server_tokens off" in Nginx, "expose_php = Off" in PHP, remove X-Powered-By) so attackers cannot match known vulnerabilities.

CSP strength	`Strict policy`	Passed
HSTS strength	`max-age=31536000; includeSubDomains, max-age=31536000; includeSubDomains; preload`	Passed
Cross-Origin-Opener-Policy	`same-origin`	Passed
Cross-Origin-Resource-Policy	`same-origin`	Passed
Cookie Secure flag	`2 cookie(s) secure`	Passed
Cookie HttpOnly flag	`Session cookies are HttpOnly`	Passed
Cookie SameSite attribute	`All cookies declare SameSite`	Passed
Mixed content	`All resources load over HTTPS`	Passed
Subresource Integrity (SRI)	`Third-party assets are dynamic or protected`	Passed
Vulnerable JavaScript libraries	`No known-vulnerable library versions detected`	Passed
security.txt	`/.well-known/security.txt published`	Passed

© 2026 **The Site Vitals**. All rights reserved.

10 SSL Certificate

Certificate validity, expiry, TLS versions and HTTPS redirects.

Validity	Days remaining	Expires	Issuer
Verified	50	Dec 22, 2026	Let's Encrypt

Certificate, TLS & domain details

Certificate subject	`parthkanasagra.in`	Info
Subject Alternative Names	`parthkanasagra.in, www.parthkanasagra.in`	Info
Registrar	`GoDaddy`	Info
Covers www.parthkanasagra.in	`Yes`	Passed
Public key	`ECDSA (prime256v1)`	Passed
Certificate chain	`5 certificate(s) served`	Passed
OCSP stapling	`Not applicable (certificate has no OCSP responder)`	Passed
TLS 1.3 support	`Supported`	Passed
Legacy TLS 1.0 / 1.1	`Rejected`	Passed
Domain expiry	`Mon Mar 26 2029 (874 days)`	Passed
Domain transfer lock	`Enabled`	Passed

© 2026 **The Site Vitals**. All rights reserved.

11 DNS & Email

Records that stop attackers spoofing email from your domain.

SPF record — Failed

`Missing`

Publish an SPF TXT record (e.g. "v=spf1 include:_spf.google.com -all") listing every service allowed to send mail for this domain.

CAA records — Warning

`Missing`

Add CAA records (e.g. 0 issue "letsencrypt.org") so only your chosen certificate authorities can issue certificates for this domain.

MX records — Info

`None`

No mail servers are configured. If the domain should not send email, publish a null SPF ("v=spf1 -all") and a DMARC reject policy to stop spoofing.

DKIM keys — Info

`No common selector found`

We checked common DKIM selectors only. If you send email, make sure your provider signs messages with DKIM and the public key is published.

DNSSEC — Info

`Not enabled`

DNSSEC signs your DNS records so resolvers can detect tampering. Most registrars and Cloudflare can enable it with one click.

IPv6 (AAAA) — Info

`Not available`

Adding an AAAA record makes the site reachable over IPv6, which many mobile networks prefer.

Name servers	`ns56.domaincontrol.com, ns55.domaincontrol.com`	Info
DMARC policy	`v=DMARC1; p=quarantine; adkim=r; aspf=r; rua=mailto:dmarc_rua@onsecureserver.net;`	Passed

© 2026 **The Site Vitals**. All rights reserved.

12 Tech Stack

HTTP protocol, frameworks, CMS, analytics, CDN and libraries detected on the page.

HTTP protocol HTTP/1.1

HTTP/2: **Not detected** · HTTP/3 (QUIC): **Not detected** · TLS ALPN: `http/1.1`

Domain operates on legacy HTTP/1.1. Enabling HTTP/2 or HTTP/3 via your web server or CDN (such as Cloudflare) will eliminate head-of-line blocking and dramatically speed up asset downloads.

Apache 100% match Web Server/Runtime · v2.4.58	**Ubuntu** 90% match General	**Laravel** 90% match General
Google Analytics (UA / GA4) 90% match Analytics/Marketing	**Open Graph** 95% match SEO/Performance	**TailwindCSS** 80% match CSS Framework
Socket.IO 95% match Real-time	**Livewire** 95% match Frontend	**Lucide Icons** 90% match UI Library
Vue.js 80% match Frontend Framework	**React** 80% match Frontend Framework	**Google Ads (remarketing)** 95% match Analytics/Marketing
Pusher 100% match Real-time/Push	**Laravel Echo** 100% match Real-time/Push	

© 2026 **The Site Vitals**. All rights reserved.

13 Platform Insights

Checks tailored to the platform the site runs on, such as WordPress or Laravel.

React

Production build	`Production build`	Passed
Server-side rendering	`Content is present in the initial HTML`	Passed

Laravel

Livewire — Info

`Detected`

Keep Livewire updated; Livewire v3 before 3.6.4 had a remote code execution advisory (CVE-2025-54068).

Debug mode output	`No debug output on this page`	Passed
Laravel Debugbar	`Not loaded`	Passed
Vite build asset caching	`Long-term cached`	Passed

© 2026 **The Site Vitals**. All rights reserved.

14 Privacy & Cookies

Trackers and cookies set on first load, consent banner and policy links.

Tracking cookies before consent — Failed

`_clsk, _clck, _ga, _ga_6P42G1T4VH`

These cookies were set on first load without any interaction. Configure your tags (e.g. Google Consent Mode v2) so they wait for consent.

Cookie consent banner — Warning

`Not detected`

Trackers run on this page but no consent banner was found. GDPR, UK GDPR and ePrivacy require opt-in consent before non-essential cookies in the EU/UK.

Privacy policy link — Warning

`Not found`

Link to a privacy policy from every page (usually in the footer). Most privacy laws and app stores require it.

Tracking & analytics tags	`Google Analytics, Google Ads / DoubleClick, Microsoft Clarity`	Info
Terms of service link	`Not found`	Info
Third-party cookies	`None`	Passed
