

Audit Report

parthkanasagra.in

Comprehensive validation across speed indexes, secure transport controls, metadata profiles, and standard compliance.

GRADE: A-

Performance 82/100 Core Web Vitals, speed indexes, and paint metrics. 	Accessibility 91/100 WCAG standards, reader tags, and contrast values. 	Best Practices 88/100 Modern browser API usage, HTTPS, and source assets.
SEO Audit 95/100 Search index markers, tag shapes, and sitemaps. 	Security Headers 95/100 CSP rules, HSTS security, and protocol safety headers. 	SSL Certificate 100/100 Certificate validity, TLS version, and HTTPS redirect status.

01. Core Web Vitals

LIGHTHOUSE RECOMMENDATIONS

REC

Eliminate render-blocking resources

Resources are blocking the first paint of your page. Consider delivering critical JS/CSS inline.

Potential Savings: 450 ms

REC

Serve images in modern formats

Image formats like WebP and AVIF often provide better compression than PNG or JPEG.

Potential Savings: 320 ms

01. Core Web Vitals (Continued)

Real-user Chrome UX Report data and mobile friendliness.

Lighthouse could not finish for this page, so the lab metrics on the previous page are placeholder estimates rather than measurements.

REAL-USER EXPERIENCE (MOBILE, P75)

Real-user field data is not available for this audit.

MOBILE FRIENDLINESS

Tap targets & layout (375px): **Poor**

Found 17 buttons or links smaller than 44x44px. Ensure all tap targets are spaced and sized correctly for touchscreens.

02. SEO & Metadata

Checklist of search engine optimization indicators and meta tag compliance.

Zero Critical SEO Issues

Page conforms beautifully to basic indexing protocols.

02. SEO & Metadata (Advanced)

Redirects, indexability, content depth, structured data, social previews, sitemap health, and AI search readiness.

HTTP → HTTPS redirect chain

WARNING

301 http://parthkanasagra.in/ → 301 https://parthkanasagra.in// → 200 https://parthkanasagra.in/

Redirect HTTP straight to the final HTTPS URL in one hop. Every extra redirect adds latency and dilutes link equity.

Text-to-HTML ratio

WARNING

4%

Most of the HTML is markup or inline code. Move inline scripts/styles to files and add more visible content.

AI crawler access

INFO

Blocked: GPTBot, Google-Extended, CCBot, Bytespider

Blocking AI crawlers keeps your content out of ChatGPT, Claude, Perplexity and Gemini answers. Keep it only if that is intentional.

www / non-www consistency

PASSED

www.parthkanasagra.in redirects to parthkanasagra.in

Access-Control-Allow-Origin

MISSING

ACTION REQUIRED

Configure Access-Control-Allow-Origin headers tightly, avoiding wildcard "*" if credentials are authenticated.

04. Server Security

Hardening of the server, cookies, and front-end dependencies.

Server version disclosure

WARNING

Server: Apache/2.4.58 (Ubuntu)

Hide software names and versions (e.g. "server_tokens off" in Nginx, "expose_php = Off" in PHP, remove X-Powered-By) so attackers cannot match known vulnerabilities.

security.txt

INFO

Missing

Publish /.well-known/security.txt (RFC 9116) with a Contact: line so researchers know how to report vulnerabilities.

PASSED

06. DNS & Email

Records that protect the domain from email spoofing and certificate mis-issuance.

SPF record

Missing

FAILED

Publish an SPF TXT record (e.g. "v=spf1 include:_spf.google.com -all") listing every service allowed to send mail for this domain.

CAA records

Missing

WARNING

Add CAA records (e.g. 0 issue "letsencrypt.org") so only your chosen certificate authorities can issue certificates for this domain.

MX records

None

INFO

No mail servers are configured. If the domain should not send email, publish a null SPF ("v=spf1 -all") and a DMARC reject policy to stop spoofing.

DKIM keys

No common selector found

INFO

We checked common DKIM selectors only. If you send email, make sure your provider signs messages with DKIM and the public key is published.

DNSSEC

Not enabled

INFO

DNSSEC signs your DNS records so resolvers can detect tampering. Most registrars and Cloudflare can enable it with one click.

IPv6 (AAAA)

Not available

INFO

Adding an AAAA record makes the site reachable over IPv6, which many mobile networks prefer.

Name servers

ns55.domaincontrol.com, ns56.domaincontrol.com

INFO

DMARC policy

v=DMARC1; p=quarantine; adkim=r; aspf=r; rua=mailto:dmarc_rua@onsecureserver.net;

PASSED

07. Broken Links

Anchor integrity validation for internal and external paths detected on the page.

Zero Broken Links

All monitored anchors returned successful connection headers.

11. Accessibility

WCAG compliance check for screen readers, keyboard support, and visual contrast values.

ACCESSIBILITY FINDINGS

MEDIUM **CONTRAST** WCAG 1.4.3 Contrast (Minimum)

Low text contrast ratio (2.87:1). The text color does not meet the minimum WCAG contrast requirements of 4.5:1.

```
<a href="mailto:parthkansangra35@gmail.com" class="inline-flex items-center gap-2 rounded-lg bg-[#FF2D20] px-5 py-2...
```

Recommendation: Increase the contrast between the text color (rgb(255, 255, 255)) and background color (rgb(255, 45, 32)).

MEDIUM **CONTRAST** WCAG 1.4.3 Contrast (Minimum)

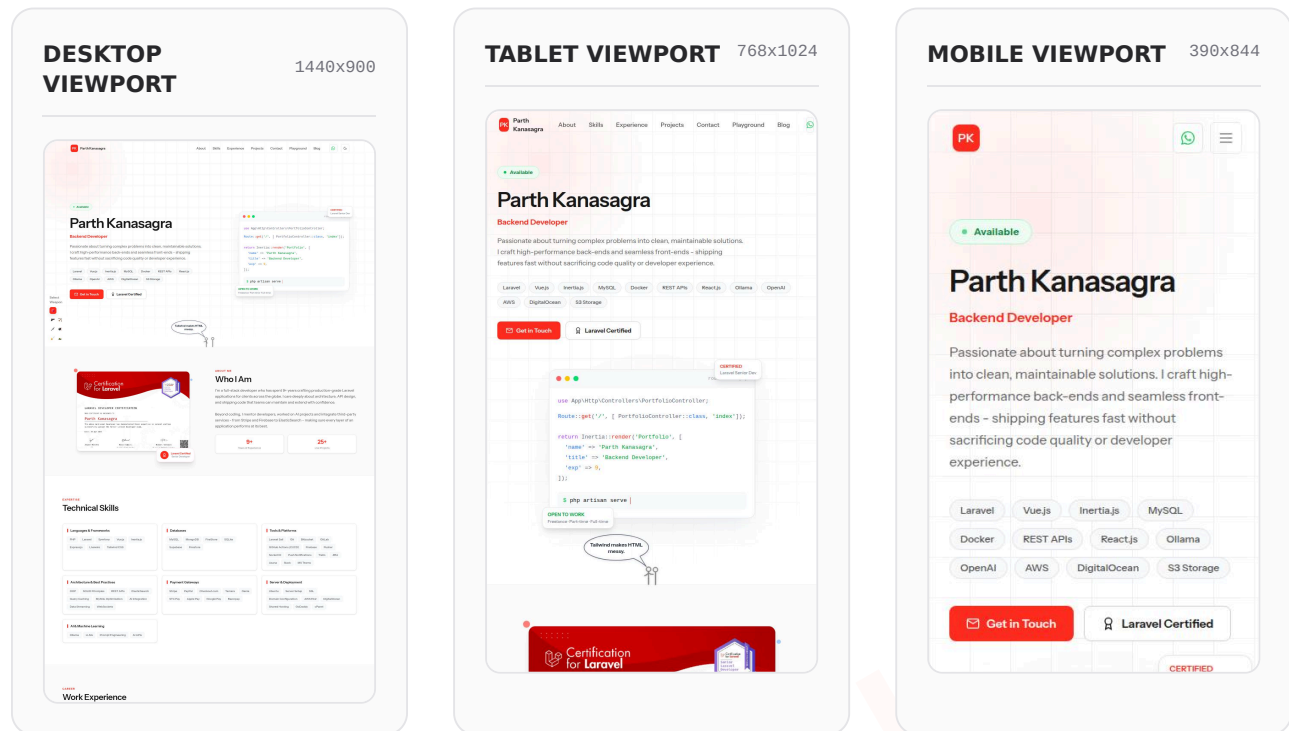

Low text contrast ratio (1.53:1). The text color does not meet the minimum WCAG contrast requirements of 4.5:1.

```
<a href="https://wa.me/919924780874" target="_blank" rel="noopener noreferrer" class="inline-flex items-center gap-...
```

Recommendation: Increase the contrast between the text color (rgb(255, 255, 255)) and background color (rgb(37, 211, 102)).

12. Screenshots
